I am writing to provide comments to the FCC on the E-Rate NPRM, proceeding 13-184. E-Rate has been very important to the Creighton School District in Phoenix, Arizona because it has helped our students and teachers gain access to a wealth of online resources, communicate and collaborate, and develop the 21st century skills necessary for college and career readiness. This is especially important with the influx of mobile technologies to support instruction and student learning. However, E-Rate funding levels have not kept pace with Creighton's future bandwidth needs. I urge you to raise the E-Rate funding level to at least \$5 billion per year, which is close to the average demand level for each of the past two years.
